Notice of the creation of new access roads from 3 June

May 2019 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. Early works for HS2 are carried out by a joint venture between Laing O'Rourke and Murphy & Sons known as LM. In your area, we are working near the A452, A45 and M42, which surround the site of the new Interchange Station.

We're preparing for our future construction works

To help us safely carry out our future construction works in your area, we need to create four new access roads surrounding the site of the future Interchange Station. These roads will tie into the existing road network and connect to haul roads on HS2 land, for the exclusive use of our construction vehicles. These new routes will reduce the requirement for traffic management in the future and help to alleviate congestion.

From June onwards, we will also begin to construct a number of small site compounds on HS2 land. Their development will have no impact on the existing road network.

We'll be starting work on 3 June

We'll be carrying out temporary daytime lane closures, across four locations, from Monday 3 June to Wednesday 14 August (see maps on next page). Our working hours will be 9.30am to 3.30pm, Monday to Friday, but our contractors may be on site up to an hour before and after those times.

We have planned daytime lane closures

We are planning temporary daytime lane closures on:

- A452 Northbound: 10 June to 26 July
- B4438: 17 June to 19 July
- A446 Northbound: 3 to 14 June, and 24 June to 14 August
- A446 Southbound: 3 to 14 June

This schedule is subject to change depending on site and weather conditions, but we'll keep you informed of any adjustments via: www.hs2insolihull.co.uk

If you have a question about HS2 or our works, please contact our helpdesk on 08081 434 434 or email HS2enquiries@hs2.org.uk

About our Community and Business Funds

We are offering two funds that are available to local communities and businesses across Birmingham and the West Midlands, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.

For more information about each of these funds, including how to apply, please visit: www.groundwork.org.uk/hs2funds
