# Notice of site preparation works - Interchange station area

September 2019 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. Early works for HS2 are carried out by a joint venture between Laing O'Rourke and Murphy & Sons known as LM. In your area, we are working near the A452, A45 and M42, which surround the site of the future HS2 Interchange Station.

### Preparing for the future HS2 Interchange Station

Preparations for main construction work on HS2 are now well underway. Over the coming autumn/winter, you may see members of our team in your area continuing this work with a range of activities. This will include putting up fencing and removing some woodland and shrubs.

We will be carrying out this work from Monday 14 October and we expect to be finished in around 10 weeks, subject to site and weather conditions. There may be instances where we will need to put in place temporary traffic management, but we will inform you of these measures if they are required.

### Why we're doing this work

In order to deliver Phase One of HS2, connecting London Euston to the West Midlands, we need to prepare as much of the route as possible between October 2019 and March 2020. This will ensure that our main construction work can commence on time. It is also important to complete this work during this time of year, as it is outside of key periods in the ecological calendar, such as bird nesting season, which minimises our impact on local wildlife.

### Stay in touch

HS2 teams will be hosting events across your area, with a number of activities planned over the coming months.

You can sign up for updates in your local area through your local community website: [www.hs2insolihull.co.uk](http://www.hs2insolihull.co.uk)

### Duration of works

From week commencing Monday 14 October.

Working hours will be from 9am to 6pm.

We expect these works to take approximately 10 weeks in your area.

### What to expect

You might see us working on site during the day.

### What we will do

Keep any disruption and impact to a minimum.

Keep all sites safe and secure.

Leave the area in a tidy state when works are complete.

# Keeping you informed
