Update on temporary lane closures on and around Northway Island

February 2020 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. Early works for HS2 are carried out by LM – a joint venture between Laing O'Rourke and J. Murphy & Sons. In your area, we are working near the A452, A45 and M42, which surround the site of the future HS2 Interchange Station.

We're carrying out vegetation clearance

In the coming months, we'll be working in your area to prepare the route for the future HS2 railway, ahead of main works construction. Our activities will include vegetation and tree clearance. To conduct these safely, we need to install temporary single lane closures.

These works were originally scheduled to commence on Monday 10 February.

We have planned temporary single lane closures

To carry out this work, we need to install temporary single lane closures on the following roads on and around Northway Island (see map on next page). Our traffic measures we be in place on the following roads:

- Northway Island inner lane
- A446 southbound slip road
- A452 northbound
- A452 southbound
- Solihull Parkway

We will be working onsite from 9am to 3pm, from Monday 24 February to Wednesday 4 March, Monday to Sunday. Our contractors may be on site for up to an hour before and after those times to set up and close down the site. You will be able to travel along all of the roads outlined, in both directions, throughout our works.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk

About our Community and Business Funds

We are offering two funds that are available to local communities and businesses across Birmingham and the West Midlands, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.

For more information about each of these funds, including how to apply, please visit: www.groundwork.org.uk/hs2funds
