Notice of Utility Works at Quartz Point, Solihull

November 2021 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain

What are we doing

In November, Western Power Distribution (WPD) will be carrying out works on behalf of HS2. The proposed work is to undertake cable diversions in the vicinity of the HS2 Interchange Station site. This work includes the excavation of material in a segregated works area, duct installation and reinstatement. All works will be segregated from vehicle or pedestrian access and sign posted. Any changes to footpaths or vehicle routes will be signposted in line with agreed traffic management requirements.

We will be starting work on the 22nd of November

To carry out this work safely, we'll install temporary overnight single lane closures on the A446 Stonebridge Road from the 22nd of November for one month, from 8pm to 6am.

The map on Page 2 outlines the location of these temporary, phased overnight lane closures along the A446. WPD may be on site up to an hour before and after these times to set up and close down the site.

HS2 during the coronavirus pandemic

We are continually reviewing the works on our construction sites in line with Government and Public Health England (PHE) advice on dealing with coronavirus. The Government's current strategy makes clear that construction activity can continue if it complies with this guidance.

The health and safety of our workforce and the communities we affect is our key priority. Please be assured that those sites that are currently still working are doing so because they can operate within PHE and construction industry guidelines.

If you have a question about HS2 or our works, please contact our helpdesk on 08081 434 434 or email HS2enquiries@hs2.org.uk
